

TUNELLA

GENUINE ART FROM THE HILLS

2024

ROOTS OF PASSION AND LOVE FOR A STORY OF ETERNAL QUALITY

Tunella is much more than a winery: it is the beating heart of Massimo and Marco Zorzettig's family history, supported by the tenacity and elegance of "mamma" Gabriella. A fascinating narrative made up of stubbornness and enthusiasm, wisdom and dedication to absolute

quality, handed down until today through three generations. Decades in which the concept of wine production has become sartorial and family ties stainless, in which there is no need for words to quickly understand each other, and hands can recognize every grape with a

simple caress. Excellence thus becomes a choice of love, absolute feeling, and passion that animates without compromise. A path of sustainability in processes, and craftsmanship in details.

Livio Zorzettig in 1949 with his father Pietro, also known as Min

On the next page Gabriella, Massimo and Marco Zorzettig

A PRESTIGIOUS TERROIR, TO MEET IN A PLACE OF THE SOUL

Tunella is nestled in a setting of beautiful hills, just a few minutes from the city of Cividale del Friuli, a Lombard treasure and a UNESCO World Heritage Site, a unique terroir at the global level. The alternation of marl and sandstone ("ponca", in Friulian), rich in

minerals, and the presence of a microclimate that welcomes the sea breezes of the Adriatic Sea, protected at the same time from the cold North winds thanks to the nearby Julian Prealps, contribute to make this land a place of the soul. Knowing fully its deep wine making

The Devil's Bridge, symbol of Cividale del Friuli

The "ponca", the typical soil of the Oriental Hills of Friuli, mainly composed of Marls (calcarean) and Sandstone (layered sands)

tradition and identity, as strong as that of the generous Friulian people, is a privilege to be grasped at every glass, a vivid witness of a centuries-old tradition.

ANCIENT GESTURES, FOR A RITUAL THAT RENEWS A WORK OF DEDICATION

Hands caressing the earth, hands tying canes,
hands pruning to let breathe. Hands that
finally reap the fruits of labor with delicate
self-confidence. The identity of a territory, the
culture of the men who have worked it over
the centuries, the nature itself, which dictates

rhythms and rules, which gives or takes away,
can be found in every glass of Tunella wine.
In this scenario, man can only accompany
the things surrounding him, but must do
so skillfully. Tasting becomes a moment of
celebration, of the wines which are one-of-a-

Steel tanks are the best solution for the temperature control during the fermentation and maturation sur lie of whites

French oak barriques and tonneaux are the ideal means to obtain harmonious and qualitative flawless red wines

kind works, where the artist does not repeat himself and exclusivity is given by a ritual, which is renewed every year. Where the sensory joy finds the key to its interpretation in the most delicate genuineness.

BRUT CUVÉE MADRE

In this cuvée we find all the elegance of Pinot Noir. After an initial refinement, partly in wood and partly in steel, the wines come together in a long fermentation on the lees to create a brut of great harmony. Cuvée Madre is a tribute to those who give life, lives with care and cherish gratitude. The 11.4 sets a moment to pause and an occasion to celebrate respect for a gift to toast to.

CLASSIC WHITES

In a territory particularly suited to white wines, international varieties such as Pinot Grigio, Chardonnay and Sauvignon, and the native varieties, Malvasia, Friulano and Ribolla Gialla, vinified in steel tanks, give life to harmonious wines capable of embellishing the set tables in the spring following their harvest.

750ML

750ML 1500ML 3000ML

375ML 750ML 1500ML 3000ML

Only the continued commitment of man, respectful of the environment, leading to wines of excellence.

After the organic fertilization of the vineyards (every two or three years), the fruiting shoots are selected during the winter pruning. Subsequently, after the spur pruning, we move on to the tying.

The disbudding, with the selection of the shoots, together with the suckering and topping, are the three spring activities useful for ensuring the

optimal balance of the vegetative part.

After defoliation, to improve ventilation, the thinning of the still green bunches is essential to leave only the best fruits on the vine.

The harvest, solely done by hand, welcomes bunches that radiate tales of tradition and a sense of trust in the future.

CLASSIC WHITES

The whole grapes are gently pressed. Then follows the fermentation and aging sur lie in **steel tanks** at controlled temperature with frequent bâtonnage.

Available in the spring following the harvest.

SINGLE VINEYARD WHITES

BIANCOSESTO

The destemming and skin

contact, the gentle crushing, fermentation and aging sur lie in **30 hl Slavonian oak** barrels at controlled temperature with frequent bâtonnage.

Available at least a year and a half from harvest.

THE SINGLE VINEYARD WHITES

The gentle crushing after a maceration on skins of the grapes from three distinctive plots, the fermentation and aging sur lie in big Slavonian oak barrels with frequent bâtonnages. This is the story of our single variety crus Colmatiss Sauvignon, Coldebliss Ribolla Gialla and Colbajè Pinot Grigio. Pearls of the tradition, to be tasted at least a year and a half after the harvest.

BIANCOSESTO

THE NATIVE WHITE BLEND

Selected grapes from two great native grapes, from a single vineyard, for a precise expression of the territory: Biancosesto let Friulano and Ribolla Gialla speak on the palate. The short cold maceration, fermentation and aging sur lie with frequent bâtonnage in big Slavonian oak barrels: to be experienced at least a year and a half after the harvest.

750ML 1500ML 3000ML

CLASSIC REDS

The big French oak barrels are the treasure chest for our Pinot Nero, Merlot, Cabernet Sauvignon and Cabernet Franc. They are the classic international varieties, which together with the native Refosco dal Peduncolo Rosso, represent the tradition. Wines recognized for their personality and excellence, capable of making the senses blossom in the spring that begins a year and a half after the harvest.

750 ML

750 ML 1500 ML 3000 ML

Wines with character and intense flavors carrying with them the soul of a territory forged by the love and wisdom of man.

The pruning during the winter vegetative rest and the subsequent spur pruning and tying are entrusted to expert hands.

Every two or three years, in autumn, between harvest and pruning, organic fertilization is practiced in all the vineyards.

The practice of thinning the bunches before veraison is aimed at preserving all the vital force of the plant only to achieve the best fruits.

The suckering, together with disbudding and topping, are the three spring activities useful for ensuring the optimal balance between the green part and future fruits.

The harvest, carried out by hand, is the prerequisite for a winemaking that aims at high quality, with perfect grapes, harvested at their best stage of ripeness.

CLASSIC REDS

Destemming, pressing, maceration and fermentation in steel tanks in contact with the skins with frequent

pumping over. After racking off, follows maturation in **25 hl French oak barrels.**

Available at least a year and a half from harvest.

SINGLE VINEYARD REDS

ARCIONE

Light drying in boxes. Destemming and crushing. Maceration and fermentation in contact with the skins in steel tanks with frequent pumping over. After racking off, follows long refining in **5 hl French oak tonneaux.**

Available at least two years after harvest for the

Schioppettino, three years for the Arcione and four years for the Pignolo.

THE SINGLE VINEYARD REDS

Their character is bold and elegant: the crus Schioppettino and Pignolo are the authentic expression of Friuli. The two well-known native grapes follow the rigor of tradition. After a slight drying of the grapes, they are aged in French oak tonneaux, to tell a story of patient waiting, respectively of two and four years of evolution, before presenting themselves to the public.

ARCIONE

THE NATIVE RED BLEND

The best native red production defines Arcione's character, which comes to life from a careful selection of Pignolo and Schioppettino grapes. In the glass there is the encounter of a strong personality and a recognizable structure, after a slight drying of the grapes it is refined in French oak tonneaux, which offers the best sensory experience about three years after the harvest.

750ML 1500ML 3000ML

PASSITO WINES

The drying of the grapes is the common denominator of these three white meditation wines. Verduzzo Friulano and Picolit, native single varietals, are subsequently refined in French oak barrels. Alongside them, Noans, a blend of Riesling Renano, Traminer Aromatico and Sauvignon vinified in steel. We shall wait patiently for the tasting: at least a year and a half from harvest.

EACH GIFT ENCOMPASSES AN EMOTION, TRAVELING FROM HEART TO HEART

Birthdays, anniversaries, traditions: gifts celebrate small and big moments in life. Thinking about someone, in this way, takes on a meaning which goes beyond the simple gesture: it is the symbol of what you feel for that person. Giving a wine rich in personality, such as those signed Tunella, represents a deeper

intention: expressing a style and showing esteem, affection, closeness. Our gift boxes thus become perfect treasure chests, as well as customizable, with a choice among white, red, passito and Cuvée Madre sparkling wine, for an experience starting from the heart and arriving back there, in your heart.

BIANCOSESTO 2020

“È invece un vino innovativo il Biancosesto dell’azienda friulana Tunella, felice connubio delle due varietà autoctone, Friulano e Ribolla Gialla, vinificato e maturato con procedure avanzate. Sono vini come questo che le guide cercano di far emergere: ambiziosi, longevi, d’intensa personalità”.

“It is, on the other hand, an innovative wine Biancosesto from the Friulian winery Tunella, a happy union of the two indigenous varieties, Friulano and Ribolla Gialla, vinified and aged with advanced procedures. Every guide seeks to bring out wines like this: ambitious, long-lived, with intense personality”.

BIANCOSESTO 2021

“Giallo paglierino intenso e brillante con sfumature verdi. Naso intenso e complesso di pesca gialla matura, albicocca e biancospino profumato. Al palato è brillante con frutto finemente elaborato, si apre con note di mela e albicocca, si allarga bene con spinta decisa sul finale, leggera nota amara”.

“Bright, intense straw yellow with green nuances. Intense and complex nose of ripe yellow peach, apricot, plus some fragrant hawthorn. Sparkles on the palate, finely elaborated fruit, opens with notes of apple and apricot, spreads across well, firm drive on the finish, slight bitter”.

Review by Eric Guido

COLMATISS SAUVIGNON 2020

“Il Sauvignon Colmatiss 2020 è arioso e rinfrescante al naso, combinando i ricchi e intensi toni agrumati e di erbe selvatiche della varietà con un soffio rinfrescante di fumo dolce. Al palato si presenta con una consistenza setosa e di frutta variegata matura con sfumature di limone. Il 2020 termina con una lunghezza eccezionale e una sensazione minerale gessosa che persiste, mantenendo l’acquolina in bocca. L’equilibrio è splendido. Ben fatto”.

“The 2020 Sauvignon Colmatiss is airy and refreshing on the nose, combining the variety’s rich and intense citrus and wild herbal tones with a cooling whiff of sweet smoke. This washes across the palate with silky textures and ripe lemon-tinged orchard fruits. The 2020 finishes with outstanding length and a chalky mineral sensation that lingers, all while keeping the mouth watering for more. The balance here is beautiful. Well done”.
